

**REMARKS**

Applicant thanks the Examiner for the indication of allowable subject matter in claims 8-17 and 27-36. Claims 8-17 and 27-36 are pending in this Application, and by this Amendment, claims 8-10 and 27-29 are amended to independent form. All claims having any form of rejection are cancelled for business reasons without prejudice or disclaimer, and Applicant reserves all rights to pursue any cancelled subject matter in any related application.

Applicants also point out that the matter added to claim 43 (now in claims 8-10) of concern in the last Office Action, namely “wherein the image detection process includes at least a first process for assigning for each received pixel a pixel type out of a plurality of possible pixel types, and wherein at least pixels of a first pixel type are further processed according to at least a second process not performed upon pixels with different types” is fully supported in the specification as filed, including in page 28, lines 19-23, page 30, lines 20-24, and page 35, lines 19+, and page 39, lines 3+.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance are earnestly solicited. Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is welcomed to contact the undersigned attorney at the below-listed number and address.

In the event this paper is not timely filed, Applicants petition for an appropriate extension of time. Please charge any fee deficiency or credit any overpayment to Deposit Account No. 14-0112.

Respectfully submitted,
